

# To all **Building Dreams** supporters

## 12/26/18 update

**Building Dreams** - mission accomplished! As planned, on December 6<sup>th</sup> we completed our 12<sup>th</sup> Tiny House unit since we began the program a year ago - on December 3<sup>rd</sup> 2017. Eight of the units are on sites and doing their job – giving warm, dry, secure sheltering to homeless. **Building Dreams'** final four units will soon be delivered to sites scheduled to open around the first of the year.

**Now what?** - As soon as #'s 9,10,11,&12 were pulled out of the warehouse, their fabrication sites were replaced with four of LIHI's incomplete or damaged units and our volunteer crews began working on them.

You are welcome to join me and the **Building Dreams** volunteers as we try to complete these by the end of January. Contact me soon if you are interested.

#13 – 16  
(now in the warehouse)

**Building Dreams'** future? – With LIHI still having access to the warehouse, and with Seattle's overwhelming need for shelter housing showing no signs of subsiding soon, continuing this shelter building program in some fashion seems like the right thing to do. What form **Building Dreams** will take is yet to be determined. Stay tuned!

**And a final thank you** – Goal driven to a fault, I had no doubt in my mind that I would be able to meet my personal goal of completing 12 Tiny House units in 2018. What I didn't know was how many people would join with me in this effort, both with financial support and with hands on manual labor. With your generous financial support I was able to design, build, and decorate what I consider to be 12 attractive, comfortable, shelters - and with them, able to get 18 – 24 homeless off the Seattle streets. Your spirit and enthusiasm in giving of your time, money, and verbal support to this worthy cause has been overwhelming – to which I am extremely grateful. Congratulations team!
